

CHRONOSOFT (commando)

The CHRONOSOFT goggle, sealed version, was designed by Bollé for commando units, special forces, rapid deployment police forces, air crews, sea crews, as well as firemen units. Made of kraton, it is resistant to a high temperature thanks to its double lenses, also provides a high level of security against fragments, gas, dust and sand. It is delivered with clear anti-fog acetate (inside) clear anti-scratch polycarbonate (outside) double lenses.
