LENS MARKING

- Platinum is a permanent coating applied on both sides of the lens that gives a high resistance to scratching (1.4 cd / m²) and to the most aggressive chemicals and delays the onset of fogging for two minutes, as per the testing requirements of EN166.
- **C.** The letter 'C' signifies that the product has been tested and approved for use against splashes and is appropriate for chemical handling.
- I. The letter 'I' signifies 'Medium Impact' approval.
- O. The letter 'O' signifies that the product has been approved for the use both outdoors and indoors, and the terminology used by Australian standards is 'outdoor un-tinted'. This marking appears on all clear, amber and contrast lenses.

Ocular lens category:

O. Range of luminous transmittance 80-100% (Clear).

TECHNOLOGY

+PLATINUM

This permanent coating on both sides of the lens gives them a high resistance to scratching, to the most aggressive chemicals and delays the onset of fogging. In all circumstances and at all times the PLATINUM lens innovation guarantees your eyes improved protection.

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

STORAGE: All products must be stored in a dry and clean environment.
